Rossesv.-About four hundred dellar orth of property, consisting of a dozen olid silver spoons, ditto silver forks, two liver goblets, one of them inlaid with gold and a gold watch and chain valued at \$250 all of which were locked up in a bureau drawer in the chamber of Mr. H. S. Davis ouse, No. 51 Prospect street-was removed therefrom some time during the afternoon or evening of Tuesday. There are many ersions of the affair. A neighbor say: that the articles were supposed to have sen taken in the early evening, while Mr and Mrs. Davis were out calling. But the olice, who have the case in hand, under tand that the parties were at home all the afternoon and evening. As new help had ecently come into the house, precaution was taken to lock up the aforesaid articles. The drawer contained, beside the things mentioned, an elegant shawl and a port nonnaie, in which was some money. Nothing else was touched, and this fact makes the police confident that the theft was committed either by parties resident or stopping in the house, or by some one in the habit of visiting there, and who is on terms so intimate as to know the whereabouts o things. The drawer was not stall tumbled and the key was found in its accustomed

place under the mat. Mr. Davis thinks the thief must have go into the house in the day time, and secreted himself until all in the house were asleep But it seems improbable to the police, that a man should take the chances of discovery hiding in a chamber all day, for the sake nerely of falling upon the contents of one irawer. And they are of the opinion that if the guilty party is detected, disgrace will fall upon some one who is above suspicion by the family whose effects have been thus appropriated.

THE HUTCHINSONS' CONCERT. - Taking one view of the matter, we were sorry to see an udience no larger than that present last light to hear the Hutchinsons' singing But quality is better than quantity, and i nay happen that a man is more-honored by the presence of ten men than by that of a thousand. The house which erected these old singers last night, though small was select, and showed as many good, earnest and sensible faces as any audience we have seen this senson.

The performance was characteristi throughout, and preserved in full force that individuality which has given "the Hutchinsons" their name and power. They sang, with the old wonderful spirit and nelody, songs of Freedom and Brother ood, of War, Victory and Peace. The ongs kept step with the march of our rmies, and were abreast with the progress of events. "Jeff, Day a' Dream," and " / Hint to Maximillian," were to the point in sentiment, and the rendering of them was given with electric effect. The "Old Granite State," with additions to suit the times, was sung in thrilling style; and the concert concluded with "John Brown's Body," &c., the audience joining in the

DEATH OF BRIGADIES - GENERAL THEODORS Bran -Mr. John A. The lumber was being brought on the ground yesterday, and the work will be commenced without delay. By this arrangement it is thought that one hundred

Peace seems to be so near now, that one night think it useless to made the proposed addition to the Home at this late stage of the war. But peace or no peace, there will probably be sufficient need for this institu tion many months yet, and the building can't be made too convenient, for officials and soldiers, while the necessity lasts.

A STIBBING SUNDAY IN MEADVILLE. - We are iving in extraordinary times, and much must be forgiven the people as to modes and times for the popular expression of joy A strange day was made of Sunday last it Meadville. The Republican says that "in compliance with the proclamation of Governor Curtin, Sunday was generally observed by the churches in Mondville as a day of Thanksgiving, appropriate sermons being delivered by the different pastors. The most impressive and enthusiastic services were, however, held at the Metholist Church in the evening. At the beginning of the services Rev. Mr. Day announced the reception of a dispatch saying that Sherman had utterly routed Johnston's army, and captured 10,000 prisoners. This created the greatest excitement, the entire audience cheering veciferously. Addresses were delivered by Rev. W. F. Day, Dr. Hunter, Alfred Huidekoper, Esq., and Rev. Dr. Loomis, and the exercises closed by

singing the 'Star Spangled Banner.'" THE STRUBOTTICON .- A fine house was out the wonders and beauties of the Stareopticon. All agree in pronouncing this the finest exhibition of the kind that his ever been here, and that is high praiser. The instrument used is one of the largest, if not the very largest, over made, and it receives the manipulation of a skilful and scientific man. The collection of views is large and select, and embraces many of the rarer specimens of architecture, ruins, &c. The For the next twenty days Mott & Haight exhibition of statuary is very fine, and as most delightful.

Our citizons cannot spend a pleasanter evening than they may enjoy at the hondemy any night this week. And such exhiions have a refining influence upon the mind, which is beyond estimate of value.

MORNING LEADER OFFICE, WEININGAY EVENING, April 12, 1885.]
The general tope of financial and commercial a airs in New York to-day, with the exception aliway stocks, has shown a fair degree of stead! ness, and the market has been characterized by to muusual excilement. Gold has ruled particularly steady, the difference between the two exremes being only one per cent, the rate closing to-light at \$45%—an advance of \$4 per cent, upon the ceing price last night. In this city to-day there was only a limited business doing in gold. The general baying rates with brokers were 1452144;

Money matters in this city to-day ruled witho totable change from yesterday. The supply of erency is fully equalled by the demand, and if Sankers were disposed to extend their favors be cility that the demand would be considerably and mented. Considering the very light bu incest doing s commercial circles here, and the entire absenof speculative movement, the source of this demand is nonewhat difficult to understand. It is probable however, that it comes chiefly from interior hold-ers of merchandise, who are hanging on to their property with the " flattering unstion" still pos see sing them that large profits are vet in store. Of this class Bankers cannot be too cautious. Ex change is close and in good request. Rates nemi-
